Experience

SOFTWARE DEVELOPER | TARYAG ANALYTICS

2019-Current

• Primary developer for a text mining and analytics startup

• Developed frontend UI features in React and backend web services in Java to support new search features

• Responsible for implementing web-scraping ETL process in Java to load new source data into the application

• Beta version launched Q1 2020

SUMMER INTERN | LOOKSTEIN VIRTUAL JEWISH ACADEMY

2017

• Developed 10 original assignments based on 15 sources for a middle school Biblical Studies course

COMMUNITY SERVICES COORDINATOR | RUTGERS UNIVERSITY HILLEL

2016

• Managed and ran daily services for campus Jewish community

• Created and managed Facebook group to facilitate networking with other universities

Projects

SOFTWARE PROJECTS

2018 - 2019

• **The Ezrat Nashim Database:** Crowdsourced, public database of synagogues with information especially relevant to women

• **Spotifyfake:** Frontend music player that can serve as a starting point for a more robust streaming application

• **Slaq:** Real-time chat app where users enter or create chat rooms and can read, send, edit or delete messages

• **Tirred:** Reddit-inspired discussion board where users sign up, create posts and comments, and vote on posts

PARSHA PACKETS | EDUCATIONAL MATERIAL

2016-Current

• Designed series of 10 packets to enhance educational framework used for 350+ campers

• Gathered and incorporated direct feedback from Camp Director
