

Ari Abramowitz, Full Stack Web Developer

(201) 994-6484 | ari.abramowitz1@gmail.com | ariabr.netlify.app | linkedin.com/in/ariabr | github.com/ariabr

Summary

Full stack web developer with experience in both startup and agile environments and Summa Cum Laude graduate of Rutgers University. I am a creative, organized and methodical problem solver with strong writing skills and a background in philosophy. I have a drive to learn new technologies and I am always ready for a new challenge.

Skills

Frontend: JavaScript, React, HTML, CSS, Bootstrap, Material-UI

Backend / Databases: Node, Python, Django, Java, Spring, PostgreSQL, MySQL, Express, Firebase

Other Tools: Git, GitHub, Heroku, Jasmine, Pytest, Jira, Trello

Experience

Fullstack Software Engineer | Dynamic Healthcare Solutions *Python, Django, Postgres, JS* 2020 – Present

- Developed software to enable efficient AR management for 75,000+ residents in 80 facilities across the US
- Worked on a team of 6 developers in an Agile framework
- Improved code quality by performing peer code reviews and incorporating other developers' suggestions
- Wrote clear and detailed documentation to ease future development

Software Developer | Taryag Analytics *React, Java, Spring, MySQL* 2019 – 2020

- Primary developer for a text mining and analytics startup
- Enabled 2020 Q1 beta launch by developing the frontend and backend for 6 new analysis features, including a sentence structure analyzer, a word cloud generator, and multiple text comparison tools
- Improved comparative analysis capabilities by building a web-scraping ETL process to load new source data
- Quickly gained familiarity with Java and completed first major task within 3 weeks
- Built effective solutions from rough requirements by researching options and finding optimal implementations

Powered by Sefaria Contest *React, Java, Spring* 2020

- Frontend developer for team building a 3D family tree visualizer for the Powered by Sefaria contest
- Awarded Honorable Mention and featured as a showcase project on the company's website

Projects *React, Node, Express, Postgres, Firebase* 2018 – 2020

- Ezrat Nashim DB: Crowdsourced database designed to help users assess local synagogue options
- Spotifake: Frontend-only music player application
- Slaq: Chat app where users can sign in, create rooms and read, send, edit and delete messages
- Tirred: Discussion board where users sign up, add posts and vote and comment on posts

Open Source 2020

- Mindful Internet Use: Coded bug fix for Chrome productivity extension with 300+ users

Education

Continuing Education

- Test-Driven Development with Python (Harry Percival) 2021
- The Complete Junior to Senior Web Developer Roadmap (Udemy) 2020
- The Ultimate Java Mastery Series (Code with Mosh) 2020

Bloc | Web Developer Track 2019

- Built 5 cloud-hosted web-apps as part of an 8-month apprentice-style coding bootcamp
- Mastered fundamental principles of software engineering and web development through project-based learning

Rutgers University | BA | Summa Cum Laude | GPA: 3.94 2018

- Majors: Philosophy, Jewish Studies; Minor: Religion
- Semester Abroad: Honors Program, The Hebrew University of Jerusalem
- Honor societies: Phi Beta Kappa; Natl. Society of Collegiate Scholars; Natl. Society of Leadership and Success
