Summary

Full stack web developer with experience in both startup and agile environments. I am a creative, organized and methodical problem solver with strong writing skills and a background in philosophy. I have a drive to learn new technologies and I am always ready for a new challenge and the opportunity to bring another product to life.

Skills

Frontend: JavaScript, React, HTML, CSS, Bootstrap, Material-UI
Backend / Databases: Python, Django, Flask, Node, Java, Spring, PostgreSQL, MySQL, Express, Firebase
Other Tools: Git, GitHub, Heroku, Jasmine, Pytest, Jira, Trello

Experience

Fullstack Software Engineer | Dynamic Healthcare Solutions   2020 – Present
· Developed software to enable efficient AR management for 80,000+ residents in 80 facilities across the US
· Improved efficiency of lab processing 2,000+ COVID tests per day by building an app to track sample history
· Worked on a team of 6 developers in an Agile framework
· Contributed to the process of transforming business requirements into actionable tickets
· Improved code quality by performing peer code reviews
· Wrote clear and detailed documentation to ease future development

Software Developer | Taryag Analytics   2019 – 2020
· Primary developer for a text mining and analytics startup
· Enabled 2020 Q1 beta launch by developing the frontend and backend for 6 new analysis features, including a sentence structure analyzer, a word cloud generator, and multiple text comparison tools
· Improved comparative analysis capabilities by building a web-scraping ETL process to load new source data

Powered by Sefaria Contest   2020
· Frontend developer for team building a 3D family tree visualizer for the Powered by Sefaria contest
· Awarded Honorable Mention and featured as a showcase project on the company's website

Projects   2018 – 2020
· Ezrat Nashim DB: Crowdsourced database designed to help users assess local synagogue options
· Spotifake: Frontend-only music player application
· Slaq: Chat app where users can sign in, create rooms and read, send, edit and delete messages
· Tirred: Discussion board where users sign up, add posts and vote and comment on posts

Open Source   2020
· Mindful Internet Use: Coded bug fix for Chrome productivity extension with 400+ users

Education

Continuing Education
· Test-Driven Development with Python (Harry Percival)   2021
